Adjustable Deck Pedestal System

This adjustable deck pedestal system is a very easy way to adjust the height of your deck frame. The pedestal offers a height adjustment of 35mm to 55mm although adapters can be added to increase the height range, giving you more flexibility during the installation process than more traditional methods.

The pedestal can also be used on flat roofs in conjunction with the pressure distribution plate.

Adapters can be used up to a maximum of 295mm.

Pedestals can be placed up to 60cm apart.
