

ENVIRO STAIN™

# AQUA-GARD™

**DESCRIPTION** Sansin Aqua Guard™ is a clear, water protection product for new and existing above ground concrete and masonry substrates. Unlike regular water repellents Sansin Aqua-Guard™ penetrates and bonds to the substrate, allowing it to breath while protecting the concrete and masonry from water and contaminants entering the substrate.

---

**APPLICATIONS**

- Brick and Stucco Walls
- Concrete block buildings
- Concrete Structures, Roof tiles
- Concrete Slabs and sills, etc.

---

**PRODUCT BENEFITS**

- Clear, will not discolor
- Can be custom tinted
- Odorless
- Penetrates deep into the substrate
- Prevents freeze-thaw damage
- Reduces efflorescence, splitting & cracking
- Protects reinforcing steel from erosion
- Reduces dusting
- Breathable
- Keeps the substrate cleaner

---

**CHARACTERISTICS**

- Coloring .....
- Odor .....
- Form ..... Liquid
- Specific Gravity (g/cm<sup>3</sup>)
- Density (lbs/gall)
- pH, .....
- Viscosity, @Zahn 4 @21°C .....
- Solvents.....
- Freezing Point .....
- Diluent .....
- Cleanup .....
- Drying Time (To touch) @ 20°C (68°F) ...  
.....Do not allow to dry
- Coverage(Depending on coating appearance and thickness) .....  
..... 40-200 sq.ft/ Usgal
- Shelf life..Looses strength slowly over time
- VOC(g/l) ..... 0 g/l

---

**PACKAGING**

Available in 1 and 5 US gallon containers

---

**COVERAGE**

- Full saturation should be achieved.
- Will cover approximately 40-200 sq.ft. per gallon dependant on porosity of the substrate.

---

**PREPARATION**

- Test Area: Pretest a hidden area. Check if surface has been pretreated. Appearance of a white residue after drying indicates a pretreated surface.

---

**WORKING PROCEDURE**

- Apply by sprayer, brush or roller
- Do not dilute
- Do not apply in heat of day or direct sunlight
- One coat application
- Can be applied at any temperature above freezing (ideal temperature between 15-20°C)
- Clean surface before application
- Apply liberally until the surface is saturated, do not allow to puddle.
- **DO NOT SPILL ON ALUMINIUM WINDOWS ETC.**
- Allow 28 days for new concrete to cure before treatment.
- See Directions For Use

---

**STORAGE**

- Close container lightly
- Store in cool dry
- Avoid exposure to sunlight
- Do not reuse container
- Do not allow freezing
- Rinse container thoroughly before disposal

---

**SAFETY** See Material Safety Data Sheet

---

**WARNING TO USERS**

Do not use metal containers.
