

Choosing the right type of Owatrol system for your project

Deciding on the right Owatrol system for your project's needs can often be difficult due to the wide range of solutions on offer. To help, Silva have put together the below table to assist you in making an informed choice for the ideal Owatrol solution for you.

New Deck/Cladding

If you have	CONTROL	PREPARE	FINISH
New Deck or Cladding (Cedar, Larch, Pressure treated, Pine)	SEASONITE (LEAVE FOR 6-12 MONTHS)	NET-TROL	TEXTROL
New Deck or Cladding (Hardwood)	SEASONITE (LEAVE FOR 6-12 MONTHS)	NET-TROL	DEKS OLJE D.1
New Deck or Cladding (Installations near water, eg Marinas, Pools, Boats, Hot Tub Decks)	SEASONITE (LEAVE FOR 6-12 MONTHS)	NET-TROL	DEKS OLJE D.1

Deck/Cladding requiring restoration

If you have	RESTORE/PREPARE	FINISH	
Old Weathered/Greyed Deck or Cladding (Mould, dirt, mildew, grey weathered wood with water stains)	NET-TROL	TEXTROL	
If you have	RESTORE	PREPARE	FINISH
Previously coated Deck or Cladding (Old deck coated/stained/sealed which has peeled, become blotchy/failed)	PREP-DECK	NET-TROL	TEXTROL

Deck/Cladding requiring seasonal refresher coat

If you have	RESTORE/PREPARE	FINISH
Decking or Cladding in sound condition (Needing a protective refresher coat)	NET-TROL	TEXTROL
